

## Tailored Solutions *Thermal Imaging Cart*

### **Hot swap power: Mobile temperature detection for any application**

Quickly detect a temperature in high-traffic public areas, offices, manufacturing facilities, healthcare centers or other locations with our mobile thermal imaging cart. Our portfolio of brackets and accessories allow you to mount your preferred thermal imaging camera or telehealth equipment to bring quick temperature measurement wherever it's needed. Our innovative hot swap LiFeKinnex™ Technology supports uninterrupted workflows.

1. Choose from multiple bracket options to attach your thermal imaging camera; mounts forward or backward to address privacy concerns

2. Convenient sani-wipe holder supports regular disinfection

3. Hot swap battery enables uninterrupted workflows

4. Compact mobile cart travels to where it's needed and fits in small spaces

Camera, monitor and other equipment sold separately. Ergotron does not manufacture, sell or endorse any thermal camera.
