

## Datanet Caris Touch PC

– Designed for Healthcare

Designed to integrate workflows, update healthcare information systems, improve caregiver productivity and enhance patient interaction, this slimline large screen all-in-one battery powered PC has been designed in conjunction with healthcare and hospital professionals to meet their everyday needs.

The Datanet Caris Touch all-in-one PC with an 18.5" screen, has been designed specifically for HealthCare Environments and its specific regulatory requirements and disinfection.

The HealthCare environment has unique workflow demands and to be effective solutions must meet the needs of your environment and be ergonomically safe.

### Key features include:

1. 18.5 inch screen provides easy viewing of complex medical records and charts.
2. Extended run time hot swappable batteries remove the OHS risks created by un-restrained power cords that laptop devices often require.
3. Providing up to 12 hours of shift usage, each battery can be Hot Swapped in seconds without interrupting applications or shift activities.
4. The Datanet Caris Touch PC can be mounted at the correct ergonomic height on mobile carts (Workstations on Wheels) to reduce neck strain risks for Healthcare professionals.
5. The Datanet Caris Touch PC plastics are anti-microbial and assist in the prevention of cross contamination in healthcare environments.
6. The Datanet Caris Touch PC is designed and built to protect against liquid sprays and can withstand millions of touches and has been designed specifically for HealthCare by a company with more than 30 years' experience.
7. The Datanet Caris Touch PC is an enterprise solution with a 5 year production lifecycle, as opposed to today's consumer grade devices that are out of date in 18 months. This long lifecycle commitment enables the Datanet Caris Touch PC to reduce your deployment and ongoing support overheads and reduces your total cost of ownership (TCO).
8. HIPAA compliant options such as a built in privacy filter that sits behind the glass and does not need to be removed to be cleaned.
9. The Datanet Caris Touch is supported by Datanet Asia Pacific, who have been servicing the Australian Healthcare industry for over 30 years by working closely with our customers and vendors to find the best solutions.

## Specifications

Model	CT18
Display Size	18.5", 1355 x 768 max. resolution
Dimensions WxHxD	469x 312x56 mm (18.5 x 12.3 x 2.2 inches)
Weight (Standard/Wall)	6 kgs/13.2 lbs
Touchscreen	Yes (Optional)
HIPAA Privacy Screen	Embedded (Optional)
Spill Proof	Yes (front panel)
Anti-microbial Additive	Yes
Processor	5th Generation Core i3/i5 or Intel Quad Core J1900 2GHz
Memory	4 GB or 8 GB
Storage	Solid State Drive (SSD)
Operating System	Windows 7, Windows 8.1, Windows 10, Linux
TPM (Optional)	On the i3/i5 models
Network/Ethernet	Intel10/100/1000 Base T
WiFi	Intel 802.11 a/g/n (internal antenna) (Optional)
USB 2.0	6 (4x USB 3.0, 2x USB 2.0)
Powered USB	1 x 12V, 1 x 24V
Serial Port	2 x RS232
External (2nd) VGA	Yes (Dual view)
Speakers	2 Watts, Stereo
Bezel Color	Black (White Optional)
Mounting	Wall or VESA 100
Security Lock	Kensington MicroSaver
Operating Environment	0° C to 40° C to 20% to 80% Humidity
Power Supply	150W, AC 100-240V (57 Wh Battery optional)
Warranty	3 years
Certification	FCC A, CE, EN 50522, EN60601
Integrated Device Options	Smart Card Reader, Biometric, Webcam, RFID
