2 Weight represents approximate system weight measured with a 40Whr battery. Actual system weight may vary depending on component and manufacturing variability.

3 Motion battery life estimates based on MobileMark 2007 performance testing on Intel Core i5 processors. Battery performance will vary by system configuration. Battery life and recharge estimates will vary based on system settings, applications, optional features, environmental conditions, battery conditioning and user preferences.

4 Approximate charging time. Validated charging from 5% to 90% with system on or system off.
